

**National Flood Insurance Program (NFIP) Floodplain Management
Requirements: A Study Guide and Desk Reference for Local
Officials**

TABLE OF CONTENTS

Unit O: Orientation

A. Introduction.....	O-3
Study guide objectives	O-4
B. Study guide materials	O-5
Notebook.....	O-5
Flood insurance study and maps	O-6
Learning Checks	O-6
C. Using the Study Guide	O-7
Where to get help	O-7
D. Acknowledgments.....	O-8
Illustrations	O-8

Unit 1: Floods and Floodplain Management

Introduction.....	1-4
A. Floods and Floodplains	1-5
Riverine Flooding	1-6
Overbank flooding	1-7
Flash flooding	1-8
Riverine erosion	1-8
Coastal flooding	1-9
Coastal storms	1-9
Coastal erosion.....	1-10
Tsunamis	1-11
Lake flooding	1-11
Shallow Flooding.....	1-11
Sheet flow	1-11
Ponding	1-12
Urban drainage.....	1-12
Special Flood Hazards	1-12
Closed basin lakes.....	1-13
Uncertain flow paths	1-13
Dam breaks	1-14
Ice jams	1-15
Mudflow.....	1-15
Natural and beneficial floodplain functions.....	1-16
Natural flood and erosion control	1-17
Biologic resources and functions	1-17
Societal resources and functions	1-17

B. Floodplain Development	1-19
Floodplain Development Dynamics	1-19
Riverine floodplains	1-19
Watersheds	1-20
Coasts	1-21
Flood Damage	1-22
Hydrodynamic forces	1-22
Debris impact	1-24
Hydrostatic forces	1-25
Soaking	1-25
Sediment and contaminants	1-26
Safety and Health Hazards	1-27
C. Floodplain Management	1-28
Evolution	1-28
The Unified National Program for Floodplain Management	1-29
Strategies and tools	1-30
Floodplain Management Strategies	1-30
<i>Strategy 1: Modify human susceptibility to flood damage</i>	1-30
<i>Strategy 2: Modify the impact of flooding</i>	1-31
<i>Strategy 3: Modify flooding itself</i>	1-31
<i>Strategy 4: Preserve and restore natural resources</i>	1-32

Unit 2: The National Flood Insurance Program

A. History	2-3
B. How the NFIP Works	2-6
Mapping	2-6
Insurance	2-7
Regulations	2-8
C. Roles and Responsibilities	2-9
The community role	2-9
The state role	2-9
The federal role	2-10
D. Community Participation	2-12
Joining the NFIP	2-12
Compliance	2-13
Probation	2-14
Suspension	2-14
Sanctions for non-participation	2-15

Unit 3: NFIP Flood Studies and Maps

A. NFIP Flood Studies	3-3
Flood Study Terminology	3-3
The base flood	3-3
The 100-year flood	3-4
Special flood hazard area and base flood elevation	3-4
Identifying Floodprone Areas	3-5

Flood Insurance Study	3-7
Flood County, USA and Incorporated Areas	3-8
B. Riverine Studies	3-9
Hydrology	3-9
Cross Sections.....	3-10
Hydraulics	3-12
Flood Profile	3-13
Floodplain Map.....	3-16
Floodway Analysis.....	3-17
C. Coastal Flood Studies.....	3-20
Storm Surge	3-20
Waves.....	3-20
Hydraulic Analysis.....	3-21
Coastal High Hazard Area	3-22
Coastal Floodplain Map.....	3-22
D. Shallow flooding studies.....	3-24
E. Approximate Studies	3-25
F. NFIP Maps.....	3-26
General Map Features	3-26
Map Index	3-27
Title block	3-27
Map revision date.....	3-27
Map scales and north direction	3-28
Elevation reference marks.....	3-28
FIRM Zones	3-29
Flood Hazard Boundary Map (FHBM).....	3-30
Flood Insurance Rate Map (FIRM) — old format (Pre 1986).....	3-30
Flood Boundary and Floodway Map (Floodway Map) – Old format (Pre 1986)	3-31
Flood Insurance Rate Map — new format (Since 1986)	3-33
Partial Map Initiatives FIRM	3-35
FIRMs with Coastal and Lake Floodplains	3-35
Coastal FIRMs	3-35
Coastal Barrier Resources System	3-35
Lakes	3-36
Shallow Flooding FIRMs.....	3-37
FIRMs with Flood Protection Projects	3-37
Countywide FIRMs.....	3-38
Digital FIRMs	3-40
Digital Flood Insurance Rate Map (DFIRM).....	3-40
Q3 Flood Data.....	3-42

Unit 4: Using NFIP Studies and Maps

A. Using FIS Reports.....	4-3
FIS Report Contents.....	4-3
Using Flood Data and Tables.....	4-4

Flood discharges	4-4
Floodway Data Table	4-5
Coastal and Lake Elevations	4-6
Relating Report Data to Maps and Profiles	4-7
B. Using the Flood Maps	4-9
Locating a Site	4-9
Determining Stationing.....	4-10
Base Flood Elevations from Maps.....	4-11
Locating the Floodway Boundary.....	4-11
C. Using Profiles.....	4-13
Profile Features	4-13
Determining Base Flood Elevations	4-14
Profiles	4-14
Other types of floodplains.....	4-15
Relating flood elevations to the ground	4-15
Relating Profiles to Maps.....	4-16
D. Maintaining and Revising NFIP Maps.....	4-17
Ordering Maps	4-17
Changing NFIP Maps	4-17
Types of Changes.....	4-19
Maps and Letters.....	4-20
Requesting Map Changes	4-22

Unit 5: The NFIP Floodplain Management Requirements

A. The NFIP’s Regulations.....	5-4
NFIP Regulations.....	5-4
Community Types.....	5-6
B. Maps and Data.....	5-8
NFIP Maps and Data.....	5-8
When FIRM and Ground Data Disagree	5-9
Regulating Approximate A Zones	5-10
Small developments	5-11
Larger developments.....	5-12
Draft Revised NFIP Data	5-14
Advisory Flood Hazard Data	5-15
C. Permit Requirements	5-17
Development Permit	5-17
Building permits.....	5-18
Small projects.....	5-18
Permits from Other Agencies.....	5-19
D. Encroachments	5-21
Regulatory Floodways	5-21
Encroachment Review	5-21
Streams without Floodway Maps.....	5-24
Allowable increases in Flood Heights	5-25
E. New Buildings in A Zones Buildings.....	5-27

Elevation	5-27
Fill	5-27
Piles, posts, piers or columns	5-28
Walls or crawlspace	5-29
How high?	5-31
Elevation Certificate	5-32
Enclosures	5-32
Openings	5-33
Use	5-36
Floodproofing	5-38
How high?	5-39
Basements	5-40
Basement Exceptions	5-40
Basements and LOMR-F Areas	5-41
Anchoring	5-42
Flood-Resistant Material	5-43
Accessory Structures	5-44
Manufactured Homes	5-45
Elevation	5-45
Anchoring	5-47
Recreational Vehicles	5-48
AO and AH Zones	5-49
A99 and AR Zones	5-49
F. New Buildings in V Zones	5-51
Building Location	5-51
Elevation on Piles or Columns	5-51
Wind and water loads	5-52
Certification	5-54
Breakaway Walls	5-54
Coastal AE Zones	5-56
G. Other Requirements	5-57
Subdivisions	5-57
Water and Sewer Systems	5-58
Watercourse alterations	5-58

Unit 6: Additional Regulatory Measures

Introduction	6-4
A. Taking	6-5
B. State Regulatory Standards	6-9
C. Higher Regulatory Standards	6-11
Location Restrictions	6-12
Highly hazardous areas	6-12
Subdivision design	6-12
Setbacks	6-14
Manufactured homes	6-15

Natural areas	6-15
Low-density zoning.....	6-15
Building Requirements	6-16
Freeboard	6-16
Foundation standards	6-17
Safety Requirements	6-18
Critical facilities.....	6-18
Hazardous materials.....	6-19
Dry land access	6-19
Encroachment Standards.....	6-20
Compensatory Storage.....	6-21
Stormwater Management.....	6-22
Temporary Moratorium	6-23
D. Flood Hazards of Special Concern.....	6-24
Coastal Erosion.....	6-24
Regulatory standards.....	6-25
Tsunamis.....	6-25
Regulatory standards.....	6-25
Closed Basin Lakes.....	6-26
Regulatory standards.....	6-26
Uncertain Flow Paths.....	6-27
Regulatory standards.....	6-27
Dam Breaks.....	6-28
Regulatory standards.....	6-28
Ice Jams.....	6-29
Regulatory standards.....	6-29
Mudflows	6-29
Regulatory standards.....	6-29
E. Environmental Protection Measures.....	6-31
Strategies.....	6-31
Federal Regulations	6-32
Wetland Protection.....	6-32
Rare and Endangered Species.....	6-33
On-site Sewage Disposal	6-33
Facilities Siting	6-33
Water Quality Regulations.....	6-33
Special Designations.....	6-34
Unit 7: Ordinance Administration	
Introduction.....	7-4
A. The Ordinance.....	7-5
Statutory Authority	7-5
Types of ordinances	7-6
Zoning ordinance	7-6
Building codes.....	7-7
Subdivision regulations.....	7-9

Sanitary regulations.....	7-9
“Stand alone” ordinance.....	7-9
Contents	7-10
B. The Administrator	7-12
Duties	7-12
Qualifications	7-15
Training.....	7-15
Liability.....	7-17
C. Development Permits	7-20
When a permit is required.....	7-20
Exemptions	7-22
Permit Application Form	7-22
Application Review	7-23
Review for Completeness	7-23
Review for Compliance	7-26
Application Approval or Denial.....	7-28
D. Inspections	7-36
First Inspection.....	7-36
Second Inspection	7-36
Checking elevations	7-37
Third Inspection	7-38
Certificate of occupancy	7-38
Later Inspections.....	7-39
E. Enforcement	7-40
Voluntary Compliance	7-40
Administrative Steps.....	7-40
Legal Recourses.....	7-41
Section 1316.....	7-42
F. Appeals, Special Uses and Variances.....	7-44
Appeals.....	7-44
Special uses	7-44
Variances.....	7-44
Boards	7-44
Variances.....	7-45
NFIP requirements	7-45
Historic buildings.....	7-54
Functionally dependent use.....	7-54
Records.....	7-55
G. Records.....	7-56
Permit File.....	7-56
Elevation Certificate	7-57
Floodproofing Certificate.....	7-58
V Zone Certification	7-59
No-rise Certification	7-59
Biennial Report	7-60

Unit 8: Substantial Improvement and Substantial Damage

Introduction.....	8-3
A. Substantial Improvement	8-4
Projects affected.....	8-4
Post-FIRM buildings.....	8-5
The Formula.....	8-5
Market value	8-6
Substantial Improvement Examples	8-10
Example 1. Minor rehabilitation	8-10
Example 2. Substantial rehabilitation	8-11
Example 3. Lateral addition—residential	8-12
Example 4. Lateral addition—nonresidential	8-13
Example 5. Vertical addition—residential.....	8-14
Example 6. Vertical addition—nonresidential.....	8-15
Example 7. Post-FIRM building—minor addition	8-16
Example 8. Post-FIRM building—substantial improvement.....	8-17
B. Substantial Damage.....	8-18
Cost to Repair	8-18
Substantial Damage Examples.....	8-20
Example 1. Reconstruction of a destroyed building	8-20
Example 2. Substantially damaged structure	8-21
Substantial Damage Software.....	8-22
Increased Cost of Compliance	8-22
C. Special Situations	8-25
Exempt Costs	8-25
Historic Structures	8-25
Corrections of Code Violations	8-26
Example	8-27

Unit 9: Flood Insurance and Floodplain Management

A. Flood Insurance Policies	9-3
Who’s Involved.....	9-3
Coverage	9-3
Building coverage	9-3
“Building” defined	9-4
Contents coverage	9-5
Basements	9-5
Enclosures	9-6
Amount of coverage.....	9-6
Waiting period.....	9-7
The Mandatory Purchase Requirement.....	9-7
Where it applies	9-8
How it works	9-8
B. Rating Buildings.....	9-11
Rating pre-FIRM buildings.....	9-11

Rating New Buildings.....	9-14
Submit for rate	9-19
Elevation certificates.....	9-19
Floodproofing.....	9-19
Rating Unnumbered A Zones	9-19
Premiums	9-20
C. The Community Rating System	9-22
Benefits	9-22
CRS activities.....	9-23
Public information activities	9-23
Mapping and regulation activities.....	9-24
Flood damage reduction activities	9-24
Flood preparedness activities	9-25
Publications.....	9-25
D. The Coastal Barriers Resources System	9-27

Unit 10: Disaster Operations and Hazard Mitigation

A. Disaster Operations	10-3
Emergency Operations.....	10-3
Building Condition Survey	10-4
High water marks	10-4
Work maps	10-4
Conduct	10-5
Notice to owners	10-5
Permit Requirements.....	10-7
Permit required.....	10-7
Clean up and emergency repairs	10-7
Enforcement.....	10-7
Initial inspection.....	10-8
Posting.....	10-8
Follow up	10-11
Flooded buildings.....	10-11
Contractor quality control	10-12
Administration	10-12
Permit forms.....	10-12
Public information.....	10-13
Technical assistance.....	10-13
Staff assistance.....	10-14
B. Hazard Mitigation	10-15
Mitigation Measures	10-15
Prevention	10-16
Property protection.....	10-16
Natural resource protection	10-16
Emergency services.....	10-17
Structural projects	10-17
Public information.....	10-18

Mitigation Planning	10-18
Benefits of planning	10-18
The planning process	10-19
Disaster Mitigation Act of 2000 Planning Requirements	10-20
Multi-Objective Management	10-20
M-O-M guidelines.....	10-21
Benefits	10-22
C. Mitigation Assistance Programs.....	10-24
Technical Assistance.....	10-24
Property Owners	10-25
Flood Mitigation Assistance Program	10-25
Planning grants.....	10-26
Project grants.....	10-27
Pre-Disaster Mitigation Program	10-28
Disaster Assistance	10-28
Technical assistance	10-28
Financial assistance.....	10-29
Appendix A: FEMA Regional Offices	A-1
Appendix B: State Contacts	B-1
Appendix C: References	C-1
Appendix D: Glossary.....	D-1
Appendix E: NFIP Regulations	E-1
Appendix F: FEMA Forms	F-1
Appendix G: EMI Courses.....	G-1
Appendix H: Learning Checks and Exercises	H-1
