1.0 Overview

The primary mission of the Flood Insurance Committee is to support the ASFPM's floodplain management efforts through information, education, and outreach activities on flood insurance issues. Historically, this committee has provided significant input on flood insurance legislation and flood insurance rules and guidelines propagated by FEMA. The Committee is also very active in keeping the ASFPM membership informed of upcoming changes to the NFIP's flood insurance program and potential effects these changes could have.

The committee is run by two co-chairs listed below and supported by a liaison. There is also an interim chair for 2017.

Co-chairs:

Bruce A. Bender, Bender Consulting Services, Inc. **John Gerber**, North Carolina Division of Emergency Management **Steve Samuelson** (Interim), Kansas Department of Agriculture

The membership is composed of those who have expertise or an interest in flood insurance. The co-chairs plan to identify a core group of members that are interested in providing additional support in the form of reviewing documents and providing written responses when the need arises.

Section 2 of this workplan presents the specific items for 2017-2018 that are to be accomplished by this committee and the work tasks required to complete these items. These items directly support the Goals & Objectives for ASFPM for 2017-2018 that are related to flood insurance.
